#### **REDACTED – PUBLIC VERSION**

### IV. OPERATING EXPENSES

Since Alltel first began providing service in the State of North Carolina, the Company has developed a robust network throughout its licensed service areas and currently provides service to a substantial number of subscribers within its Designated Areas. Attached as Confidential Exhibit B, Appendix 1 is a brief description of the types and locations of facilities the Company currently operates that serve the State of North Carolina.

Alltel's projected service coverage, quality and capacity improvements set forth in the Service Improvement Plan represent a substantial capital investment in new facilities and services based on the projected receipt of federal high-cost universal service support. Pursuant to Section 254(e) of the Act, the Company will utilize the federal high-cost universal service support it receives to operate, maintain and upgrade these network facilities and services consistent with the universal service objective of providing quality telecommunications services in rural and high-cost areas and to low-income subscribers. Included in Confidential Exhibit B, Appendix 1 is a description of the projected operational costs associated with the provision of service and maintenance of facilities within the Company's Designated Areas in North Carolina.

### V. <u>ANNUAL PROGRESS REPORT</u>

Due to changes in consumer demand, regulatory requirements, technology improvements in the wireless telecommunications industry and other factors, Alltel's Service Improvement Plan is subject to modification and amendment. In addition, the Company's proposed deployment schedule may be adjusted depending upon the amount of federal high-cost universal service support it receives and the timing of its receipt of such support. Construction of the Company's projected network facilities and completion of other upgrades is based on its estimates of projected expenses, the per-line support available and the number of current subscribers in the Designated Areas. Should the Company's actual expenses, per-line support amount or the

### **REDACTED - PUBLIC VERSION**

number of its subscribers change, it may require more time to complete the proposed service improvements.

Although Alltel's proposed Service Improvement Plan may change over time, it will continue to provide service throughout its Designated Areas to all customers upon reasonable request. Alltel will continue to respond to consumer demand and is fully committed to taking additional steps to ensure quality service. As required FCC Rule 54.209(a)(1), Alltel will file a progress report on its five-year Service Improvement Plan on or before October 1, 2007.

### **CERTIFICATION**

The undersigned, Gene DeJordy, does hereby certify as follows:

- 1. I serve as Vice President of Regulatory Affairs for Alltel Communications, lnc.("Alltel") and am duly authorized to make this certification on behalf of Alltel.
- This certification is submitted in support of the Company's Service Improvement
   Plan for the State of North Carolina.
- 3. I have reviewed the Service Improvement Plan and the facts stated therein, of which I have personal knowledge, are true and correct to the best of my present knowledge, information and belief.

Gene DeJordy

# ALLTEL SERVICE PLANS IN NORTH CAROLINA ELIGIBLE FOR UNIVERSAL SERVICE SUPPORT

A description of the available rate plans eligible for universal service funding is attached to this **Exhibit C**. In addition to the attached service plans, Alltel provides service offerings to customers under grandfathered or legacy service plans that are no longer available to new subscribers. Each service plan includes the supported services required by FCC Rule 54.101(a)(1)-(9). Alltel's additional service plans are subject to change.
